01

What is GDSC?

Google Developer Student Clubs (GDSC) are university based community groups for students interested in Google developer technologies. Students interested in developing their developer skills from any undergraduate or graduate level are encouraged. Students that join a GDSC develop their expertise in a peer-to-peer learning setting and create solutions for neighbourhood businesses and their community.

WHAT IS BIT N BUILD?

The BIT N BUILD - HACKATHON is a 24-hour international event organized by the Google Developer Student Clubs - CRCE in collaboration with other Google Developer Student Clubs globally. This offline hackathon provides students with a platform to showcase their technical skills and creativity in three domains: Web/App development, AI/ML, and Blockchain. Participants are challenged to create innovative projects, learn new skills, and share their creations in a supportive and welcoming environment.

02

Previous BIT N BUILD

The previous Bit N Build was a 24-hour-long offline hackathon consisting of 3 Domains - Web Dev, Blockchain & AI/ML.
